# LEDGER

SECOND YEAR.

MAYSVILLE, KY., FRIDAY, SEPTEMBER 15, 1893.

ONE CENT.

## INCONSISTENCY.

Washington News.—Emperor William's dissertations on peace, while trying to get up a row with France, are at once entertaining and instructive.

+

## WORK FOR THE MARINES.

Pittsburgh Chronicle Dispatch.—No ship has yet been chartered to carry the Veragua fund across to Spain.

+

## VETERAN'S OF NAPOLEON'S TIME.

Chicago Inter Ocean.—There are forty-three veterans living in Prussia who took part in the expedition against Napoleon just eighty years ago. The oldest of them is 107.

+

## ALL BUT ONE.

Mail and Express.—Every financial crisis that the country has had during the present century, with one exception, occurred during the Administration of a Democratic President. Democracy is a thing of ill omen.

+

## PATERNALISM.

Elmira Advertiser.—The New York Press cartoon has Senator Hill, in diminutive, swinging at the tip end of Senator Peffer's beard. Peffer as War-wick seems almost to rival his political adopted founding and surveys him with paternal mien.

+

## A WINDJAMMING TOURNAMENT.

Chicago Herald.—With Mr. Stewart wound up for an indefinite period, Mr. George booked for a six days' speech, Mr. Morgan loaded with an oration warranted to last four or five days and Messrs. Allen, Call, Butler and Vest ready to fill in the chinks, the outlook for the Senate stenographers—and for the country generally—is dismal indeed.

+

## THEY LEARNED IN A GOOD SCHOOL.

Courier-Journal.—The man who slew the Dalton gang at Coffeyville was a Kentuckian. The sharpshooting hardware merchant who dropped two of the bank robbers at Delta, Col., also learned in his native Kentucky how to brush an eyebrow with a bullet. When a Western bandit desires to raid a bank he should first ascertain if there are any Kentuckians in the town.

+

## ONLY SEVEN.

Cleveland (O.) Leader.—A New York manufacturer, who felt compelled to close his factory because of the tariff uncertainty, asked his ninety employees how many of them had voted for Harrison and against a change last fall. To his surprise only seven of the ninety announced that they had given their verdict in favor of Protection. It is safe to say that the other eighty-three are sorry now that they favored Free-trade in the hope that it would give them higher wages and better times.

+

## LAZY MEN OF THE TROPICS.

Indianapolis Journal.—"The laziest fellows I ever see, not barrin' Thompson there even," said the man with the gingerbread, "was down in Central America. Tell you what I see once. I wandered into a little saloon that one of the greasers kept, and what should I see but a lot of fellows sittin' round a table with a lot of dice on it, an' all of 'em watchin' them dice as if they spected them to turn over of themselves. Which, sure enough, they did in a minute. Then I got onto their game. You see, about every three or four minutes there is an earthquake in that country, and them lazy halfbreeds was lettin' the earthquake do the shakin' of the box for 'em. Now, what do you think of that?"

+

## THE SAME MONEY.

Cleveland (O.) Leader.—We had the same money one, two, three and ten years ago; business was prosperous, work plenty, and but few, outside the silverites, were crying for more. The Nation never experienced more genuine prosperity. But the political conditions were not as they are now. The party that threatened to overthrow Protection to American industry; that had proclaimed "a war of extermination against the protected industries of the country," was not in power. Here is the root of the trouble. Let the workingmen memorialize Congress not to interfere with Protection; let them agitate against opening our ports to the industrial products of Europe, and they may prevent the carrying out of the Free-trade programme. If the great mass of the workingmen of the country, employed or unemployed, would make themselves heard in behalf of home industry they might prevent a ruinous reduction of the tariff. Manufacturers fear to produce a large stock of goods when they know that a reduction of the tariff would force them to compete with cheaper goods made in Europe.

Dolly Vardin. Dolly Vardin the new three act comedy from the pen of Charles T. Vincent is founded on a comedy ground work as familiar as the alphabet to theatergoers. There is one lovable middle-aged vicar, who falls a victim to the wiles of a fascinating American widow. There is a harmless lunatic with a penchant for reading newspapers and getting mixed up everlastingly with the paid advertisements. There is his wife, a soured female, who in an unguarded moment steals some valuable jewels and fastens the guilt on the vicar's ward, Dolly, because she promises to become the heiress to the vicar's property, and not her son Louis, as she has fondly hoped. Then there is another son of the woman, a manly warm-hearted fellow, a Lieutenant in her Majesty's Navy and desperately in love with Dolly. A ubiquitous German stable boy, who consorts with everybody in the play and an Italian money lender and several other characters round out the semblance of the plot. See it at Washington Opera-house Friday evening, September 23d. Prices 25, 35, 50 and 75 cents. Reserved seats at Nelson's.

## THE THIRD DAY

### Of the Conference—List of Standing Committees.

## NEW PENSION BILLS.

Among Them Mr. Caruth's Measure Against Those Holding Office.

Besides the bills relating to pensions heretofore mentioned, the following House bills have been referred to the Committee on Invalid Pensions for consideration. A meeting of the committee, the first of this Congress, will be held this week: By Mr. Bailey.—To strike from the rolls the names of all pensioners in receipt of an income of \$500 a year, or possessed of property valued at \$5,000.

By Mr. Covert.—Fixing the pension for the loss of an entire leg or arm at \$50 a month; for loss of leg or arm above knee or elbow at \$55 a month; for loss of hand or foot at \$50 a month, total disability having been produced thereby.

By Mr. Snodgrass.—Providing that the pensions of all pensioners who are inmates of soldiers' homes shall cease so long as they shall remain inmates of such homes.

By Mr. Caruth.—That no pensioner in the service of the United States shall be entitled to draw a pension for any period of time during which he is or shall be entitled to the full pay or salary which an able-bodied person discharging like duties to the Government is allowed by law.

By Mr. Pickler.—Granting a service pension to persons serving in the army, navy or marine corps of the United States during the war of the rebellion at the rate of one cent a month for each day of service; also to give permission to pension claimants, in person or by attorney, to inspect any paper on file in the department relating to his or her claim; also making \$6 a month the minimum rate of pensions.

## WEEKLY CROP BULLETIN.

### Condition of Small Crops Throughout Kentucky to Date.

The weather conditions of the past week may on the whole be considered as very beneficial to the farmer. The severe drouth which has prevailed in nearly every section of the state has been broken. Up to the date of this report it is true there had not been much rain in the Northeastern portion of the state, but showers had begun to fall through that section, and it is more than probable that nearly every portion of the state will have received beneficial rain by the night of the 12th. Good rains have fallen in other sections, being heaviest in the Southern portion of the state. The temperature was considerable above the normal and there was more general cloudiness than for some time past.

These conditions will materially aid all crops that are not beyond resuscitation or too far advanced in maturity. The tone of the reports from crop correspondents, in regard to the yield of maturing crops, are exceedingly encouraging still. The recent drouth may be said to be one of the severest that has occurred for years.

The corn crop is the most seriously damaged. The crop is too far advanced for the recent rains to revive it, and the shortage will be as great as the bulletins of the past weeks have reported—about 50 per cent. Some corn is being cut. The fodder is badly burned and dried up.

The tobacco crop is not so badly injured as corn, but very much damaged. Cutting has been progressing rapidly, and it looks as if there will be little danger of injury from frost, as most of the crop will be saved before a damaging frost is likely to occur. The recent rains will retard the ripening of the late crop, however.

Great benefit will accrue from the rains in regard to pasture and stock. The drouth was seriously affecting the stock, and causing much labor to provide water for it. No fall plowing has been yet, as the soil has been entirely too dry, but since the rains that work can be pushed.

Late truck crops and gardens have been greatly benefited, but on account of the dry weather the seedling of these crops has been less than usual.

More Chicago Sleepers. On account of the increased travel during the continuance of the half fare rate to Chicago, the Chesapeake and Ohio will inaugurate additional through car service.

Pullman sleepers by the F. & V. Vestibule Limited (No. 3) and the Big Four Route run through to Chicago, stopping at Midway Pleasant and in the hotel district of the South side.

The half fare tickets apply only by the route of the through cars.
